

Adgility™

Back Pack Vacuum

Save time. Reduce costs.

Combination floor tool is easy to use on hard or soft floors.

Edge cleaning is done easily with the Adgility™.

Padded belt is adjustable for operators comfort.

A Light-Weight, Comfortable Solution for Cleaning in Obstructed Spaces.

New from Advance is the Adgility™ back pack vacuum. With its light weight, small size, and ergonomic shape, the Advance Adgility maximizes operator agility and cleaning ability to create a new standard in comfort and performance.

At 6.4 pounds, the Adgility vacuum can be worn for extended periods of time without causing fatigue or muscle tension. Its small size and low weight allows the user to be more productive in tight areas such as cubical farms and commercial office space. Don't let its small size fool you; the Adgility vacuum has the most power, 25% more, than any machine in its class, which means better pick-up for increased productivity and deeper cleaning. Although the Adgility vacuum uses a powerful 1,000 watt motor, the unit is quiet enough for daytime cleaning without disturbing building occupants.

The Adgility vacuum features three levels of filtration and an optional H.E.P.A. filter for improved indoor air quality. The machine includes a 12 inch combination floor tool to provide dual surface cleaning for both hard and soft floors. In addition, the rotating dust brush enables the bristles to be turned to the correct angle, ensuring maximum cleaning.

The Adgility back pack vacuum was built with operator comfort in mind with its padded waist belt. The belt includes loops to hold the crevice tool and dust brush, keeping them handy when on the go. No shoulder straps make it easier for the operator to bend over to pick up trash, larger debris, and perform other tasks while vacuuming. The machine's bent wand is ergonomically designed for users of all hand sizes and is less fatiguing to use. The Adgility vacuum's patented, curved back conforms to the user's body and provides greater comfort than competing designs. This vacuum is built to fit most people's body types.

Adgility™ Back Pack Vacuum

- 1** Padded waist belt provides greater comfort
- 2** Patented curved back cradles the user
- 3** Designed to be flipped over and operated by left or right handed users
- 4** 50 foot yellow safety cord
- 5** Semi-locking hose easy to attach or detach
- 6** Telescopic tube for easy height adjustment and user comfort
- 7** Easy to use foot switch for changing from carpet to hard floor
- 8** Suction relief valve reduces power when needed
- 9** Crevice tool and round dust brush are standard accessories
